David McClain of Elkton, Kentucky, shown at right, suffered critical injuries in a motorcycle accident.

"Words cannot begin to express my profound gratitude for the work you do on a daily basis, especially on that fateful day in July. David's survival was a testimony to the knowledge and expertise you exhibit on your flights. I feel very fortunate to have witnessed that extra special "something" you also possess. That true sense of caring that can only be felt while in your presence...

...this letter is only a small token of my heartfelt appreciation to you and AIR EVAC LIFETEAM."

Thank you sincerely,
Tamara A. Martin

Andrew Northrup of Washington, Indiana, was critically injured after being struck by a van while riding his bicycle.

"...There is not a day that goes by that I don't think about Andrew and what a miracle it is that he is still here. But, if it were not for you and your team, he wouldn't be. My little brother is so filled with joy; he's always happy, always walking around the house singing and smiling just like he did before the accident. My family and I are so lucky he is still here today. Without you, I would not have a little brother anymore and I cannot thank you enough. You and your team are true heroes."

Thank you,
Alisha Northrup
